# A Practice Manual of Rachana Sharir

## प्रायोगिक रचना शरीर विज्ञान

This is the first edition of any Practice Manual of Rachana Sharir. For a long time, the students of Ayurveda are writing their practicals and drawing diagrams in practical notebooks or using modern anatomy practical books which are designed for MBBS syllabus. Lacuna in this field has motivated the author to write a Practice Manual particularly for Ayurveda students. Practical is an important and integral part of learning Rachana Sharir which is a specified field of Ayurveda.

### Salient Features

- First ever Practical Book of Rachana Sharir, covering the complete syllabus according to the new NCISM curriculum.
- This book is an attempt to provide Ayurveda and modern practical in one book.
- Easy-to-understand table forms for non-diagrammatic practical topics.
- Lucidly provided subheadings making practical quite easy to write.
- Labelled boxes to illustrate diagrams of the subject.
- An ideally suited practice manual to serve the practical requirements of Rachana Sharir for undergraduate students of Ayurveda.
